

CIS

NPS / NPSS – Flat Conveyor with / without Guard Frame

Robot cell discharge conveyor – assembly lines, food industry lines

Characteristics

Type code	NPS / NPSS
Layout	Horizontal
Main partner	Industrial robot
NPS	Side guard frame – parts cannot fall off
NPSS	Open sides – for conveying wider parts
Belt surface	Smooth PU, FDA-compliant
Sectors	Automation, food/packaging, plastics
Manufacturing	Custom-sized, to customer specification

Typical applications

- At the end point of a robot cell – the robot places the finished parts onto the belt
- Automated assembly lines – assembly of medium-weight parts
- Food industry and packaging lines with an FDA belt

Why choose it?

- ✓ NPS: side guards – safe robot integration
- ✓ NPSS: open sides – wider products can also be conveyed
- ✓ With an FDA belt: food safety compliance
- ✓ Easily integrated into a robot cell – can be connected to the control system
