

LIAD PowderSave-V

Volumetric powder screw feeder – 10–100 litre hopper |
Stainless steel

10–100 litres

Hopper size

Description

A volumetric screw feeder designed for dosing free-flowing powders and bulk materials (e.g. TiO_2 , talc, retardant). The stainless steel agitator ensures homogeneous material flow towards the screw. The screw size and motor power are matched to the properties of the given material and the required flow rate.

Applications

- **Powder additives:** Dosing of TiO_2 , talc, retardant and fillers
- **Extrusion lines:** powder additive supply in continuous operation
- **Injection moulding:** dosing of powder-form masterbatch
- **Bulk materials:** dosing of granules and micro-beads

Key features

- **Stainless steel screw:** brushless DC or AC motor; matched to material properties
- **Quick-change screw:** removable without tools – fast material changes
- **Stainless steel agitator with AC motor:** homogeneous material flow, no bridging
- **Hopper size:** 10 / 30 / 50 / 100 litres; with optional extension hopper
- **Large filling opening;** all material contact surfaces made of stainless steel
